CAKES

Try a slice of one of our scrumptious homemade cakes or grab a tasty tray bake – and why not add a scoop of ice cream on the side?

We are always trying to do our bit for the environment – from the tables and bar tops made from the oak trees that stood on this site, to the solar panels for our electricity, our biodegradable take-away cutlery, our EV charging points, our coffee granules used for compost and, of course, our waste recycling.
